LINDNER

Das Original

Husband and wife partners Elena Lindner and Frank Wenger, Owners and managing directors in 4th generation.

The employees at the head office in Schömberg in summer 2017

LINDNER residence in Schömberg in the 50s.

Head office in Schömberg, Zollernalb Kreis.

LINDNER at your service since 1947 - over 70 years of experience for the best possible storing solutions for collections worldwide.

THE TASK...

As a collector of stamps, coins, medals, banknotes and other objects you have taken on the rewarding task of safeguarding objects that may have monetary, personal or cultural significance. Through this you are documenting the present and the past in a very special format.

At LINDNER we have made it our primary mission to support you in your passion with our collecting systems. Whether your passion is to collect objects to preserve or enhance the value, or to research and develop a collecting theme, the presentation and storage of your collection is a fundamental part of your passion. The LINDNER product portfolio offers a wide range of possibilities and essential accessories to aid you in your hobby.

THE ESTABLISHMENT...

In 1947 August Lindner began to develop products for collectors and over the following years continued to expand these. What began as a small company with only few products and coworkers has developed into a mid-sized global business with a considerable product range and variety; committed to unholding tradition and also innovating new ideas. The first coin album available in Germany is still a treasured LINDNER product to this very day. The hingeless (falzlos) system, the T-products and last but not least, the LINDNER coin boxes, are all inventions "Made by LINDNER" which have found their place in the world of collecting. The continual enhancing of the portfolio by working together with collectors and dealers alike, has made LINDNER a household name in collector's circles.

In 2006, just about 60 years after the company's founding, the families 4th generation took over the management of the LINDNER business and is now leading this internationally established enterprise in its unchanged title. Our primary commitment is still offering high-quality, safe, beautiful and practical conservation of collector's objects. Since its founding, the company's seat is in Schömberg near Balingen in the Zollernalbkreis. Through a network of domestic and foreign dealers and distributors, we are represented nationally and internationally, enabling us to offer our products worldwide.

THE CLAIM...

Our principal goal to support you in your collector's passion is assured through our high quality standards. We see quality control in production and deliveries as a responsibility and self-evident. A large portion of our products are still either self-produced or manufactured in German and European companies, which guarantees us a fast and efficient access to product and quality control. If nothing less, the quality standard of LINDNER is convincing worldwide in function, workmanship and design.

THE SERVICE...

Our high quality standards of control extend themselves into our after sales service and our experienced advisory service. This applies equally for our advisory teams in our main seat in Schömberg, as well as for our representatives worldwide. Through a long established collaboration with our sales partners we are now represented in 100 countries of the world

LINDNER COIN BOXES

The LINDNER coin boxes are easy to handle and the large selection provides flexibility for every coin collector. Coin collectors who already use the coin box system know that years of experience helped develop and improve this exceptional product line to satisfy the wishes of every coin collector and to provide individual storage solutions.

Years ago, LINDNER developed the perfect coin box system with the help of coin specialists and coin collectors. To ensure that you have purchased an original, high-quality LINDNER coin box, look for the "LINDNER" logo on the top of the tray pull handle.

LINDNER coin boxes offer many possibilities and varieties for storage. The unique stacking system allows you to select from 3 different heights of the boxes and from over 80 different configurations to hold small, large, thick and thin coins; as well as capsules and coin holders. Choose from different carrying cases to protect your coin or collection boxes.

The LINDNER coin box system can be expanded without limits. The boxes are stackable, sturdy, fit into most safes and match almost any decor. LINDNER offers a variety of practical accessories which – in combination with the coin boxes – provide

a successful and safe storage solution for all your coins, medals and banknotes. All materials used in the manufacturing process of the LINDNER coin boxes have been subjected to rigorous tests. The synthetic frame is scratch-resistant to ensure long-term usage and to maintain attractive appearance. LINDNER coin boxes are practical, versatile, safe and attractive!

CHASSIS

THE MATCHING FRAME FOR YOUR COINS

Our CHASSIS frame is truly an innovative product and provides numerous possibilities to display any of your LINDNER coin boxes. It is so easy to use: Simply remove the inside tray of the frame and place the selected coin box unit you wish to display into the tray. Slide the filled tray back into the frame - that's it! Now you can decide whether you hang the frame on the wall or use it as a free-standing frame and place it on your favourite piece of

furniture. The enclosed metal pins come in two different lengths and are easily screwed into the back of the frame. The CHASSIS frame can be displayed vertically, horizontally, upright, lying down - the choice is yours.

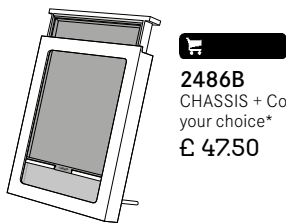

Thanks to the long metal stands, CHASSIS can be set up in four different positions: upright, horizontally, flat or tilted. If you want to hang your

CHASSIS on the wall, the metal stands serves as a distance spacing to keep the coins safely in the inserts.

COIN BOX CAPSULES FOR COINS Ø 16 - 51 mm

More safety and flexibility with coin box capsules: Additional protection for all your coins against environmental influences, finger prints, dirt, skin oil and moisture! Two capsule sizes offer maximum flexibility by holding coins from Ø 16 up to 51 mm. Every capsule contains a red insert consisting of several concentric rings. The number of rings

of the inserts can be adjusted to accommodate the coin. Multiple coin sizes can be kept in one coin box. The capsules come in red or winered, matching the velour insert of our "Standard" or "Smoked glass" coin boxes.

COIN BOX INSERTS FOR COINS OR CAPSULES UP TO Ø 62 mm

Small coins, large coins, encapsulated coins and coins without coin capsules – you can collect almost limitless with our coin box inserts. Just two coin box variations but countless possibilities because: Inlets in two different sizes offer a maximum of flexibility and accuracy up to a diameter of 62 mm. The usage is very simple. Just lay the coin or the coin capsule on top of the inserts. Now you have to break

out the excess rings. So if you like to collect very different sizes of coins or coin capsules in one coin box, get with this the perfect system. LINDNER coin box inserts are available in red and winered, suitable for the coin boxes "Standard" or "Smoked glass".

OCTO COIN CAPSULES FOR COINS Ø 14 - 41 mm

Format:
50 x 50 mm

COINS OF DIFFERENT SIZES IN ONE COLLECTION SYSTEM

From pennies to gold coins - all in one system. This is a collecting and presentation system in order to protect coins of different diameters in coin capsules and at the same time present them elegantly in coin boxes, coin cases or coin pages. One „Coin OCTO“ consists of an octagonal distance disc made of high-quality Plexiglas with an outside measurement of 50 x 50 mm and a corresponding LINDNER coin capsule. The distance disc has to be placed between the bottom and lid of the corresponding coin capsule. By this the different coin diameters are evened out. The LINDNER coin capsules are extremely scratch resistant and provide the perfect protection and a „crystal clear view“ of your coins.

COIN CAPSULES CARRÉE FOR COINS Ø 14 - 41 mm

Format:
50 x 50 mm

The uniform external format (50 x 50 mm) of the coin capsule offers the option of collecting coins of different diameters in one collecting system. The softener and acid free block-foam inserts are available in diameters from a size of 14 mm to 41 mm - for all current coins.

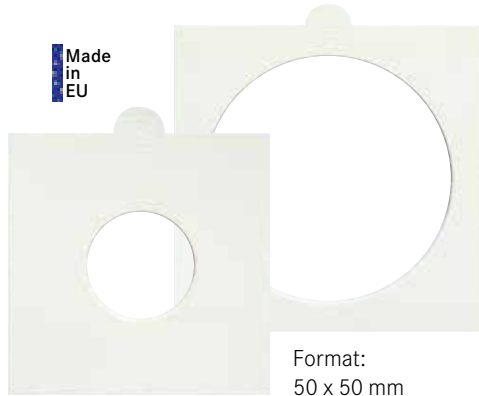

The coin capsules are extremely scratch resistant and provide the perfect protection and a "crystal clear" view of your coins. In addition to the robust material, the protective rim on the bottom and the lid of the capsule prevent scratching of the capsules.

SOLID WOOD CASE CARUS

PLENTY OF SPACE IN A COMPACT CASE – PURE WOOD CASE WITH 4 TRAYS AND DARK RED VELOUR COIN INSERTS

Pure wood – for LINDNER this means: authentic wood in a perfect, dark stained finish. The surface is very smooth and shows the natural grain of the wood. The wood trays inside have two indentations – one on each side – to remove or fill the trays more easily. Two durable latches are not only functional but also enhance the appearance of the coin case.

Format: 325 x 265 x 65 mm

MULTI COLLECT - SYSTEM

VERSATILE COLLECTING WITH OUR MULTI-TALENTED SYSTEM

Made in Germany

Made in Germany

Versatile collecting with our multi-purpose album system. This album rightly deserves its name – every collector can find a large assortment of pages with a wide variety of pocket sizes which provides different types of collections.

Whether you collect stamps, sheetlets, FDCs, ETBs, year books, booklets, postcards, bank-notes, coins or phone cards: Our Multi collect-system has a place for everything! The typical 4-ring mechanism of the padded Multi collect-ring binder guarantees an easy handling and impresses with a large capacity. A plastic window on the spine provides space for identification labels/description of contents.

We offer ring binders which differ in size, colour and storage capacity.

Fitting ring binders are found on page 40-41.

MULTI COLLECT-PAGES

The **one-sided**, crystal clear Multi collect-pages made of softener and acid-free hard-PVC-foil. You can view front and back of the items that are placed in these pages.

The **double-sided**, black Multi collect-pages are made of archival safe hard-PVC, that is free of acids and chemical softeners to ensure long term preservation and presentation.

Our **crystal clear Multi collect-coin pages** provide neat and safe storage of your coin collection. Simply remove the plastic strip from the page and insert the coins in the individual compartments. Once it is filled, insert the strip back into the page. The pages are easily removed, added or changed.

DIGITAL SOLAR-CALIPER

High-quality, digital measuring device made of a carbon fiber compound, with versatile functions and an LCD-display. Can be set to zero position at any time, allowing for differential measuring. Includes feature for measuring depth and internal diameters. Can switch from metric to imperial system. Batteries included.

The carbon fiber compound material guarantees precise and gentle measuring of coins and other objects.

Measuring is possible at any given time, thanks to two energy sources. When the brightness exceeds 200 LUX, the solar cell provides the display with power. When brightness is less than 200 LUX, a 3 Volt Battery supplies the energy.

Technical data:

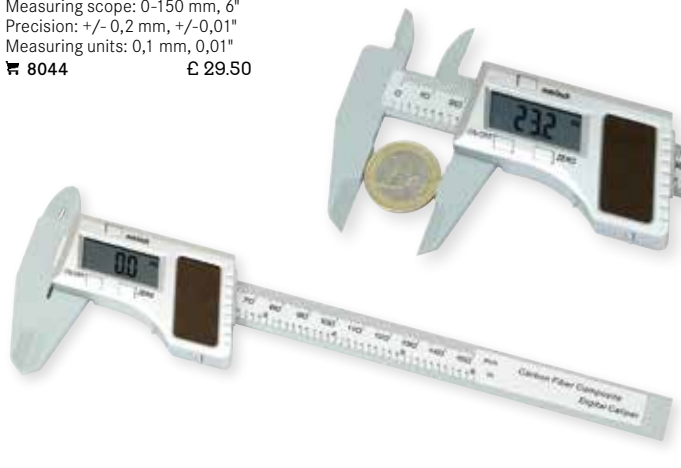

Measuring scope: 0-150 mm, 6"

COIN TONG

It is very important to handle your coins carefully to maintain their quality and protect them from dirt. Never touch coins with your fingers; moisture and skin oils can lead to interaction with the metals.

To avoid damage of any kind, it is of utmost importance to handle coins only with a pair of quality coin tongs. The tips are covered with a protective coating, which guarantee safe handling of your entire coin collection. They are an essential tool.

For a gentle and hygienic cleaning of coins, watches, jewellery, glasses, CDs, razor heads, silverware, dentures and much more through ultrasound waves. This Ultrasonic cleaner produces smallest pressure shafts. These pressure waves create millions of tiny air bubbles. The surface is thoroughly cleaned by rupture of the bubbles. By this process, even the dirt in the corners and recesses is removed and absorbed by the liquid.

LINDNER T-SYSTEM

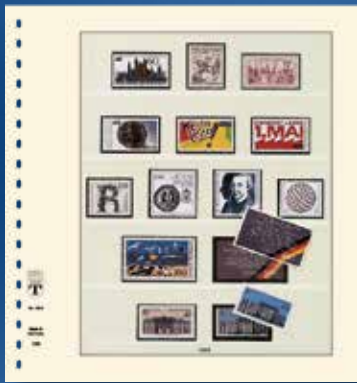

Each page of the LINDNER T-system is made of a PERMAPHIL®-cardboard page and a hard-PVC-foil sheet which is fixed on the left side of the page. The foil sheets are softer and acid free. You can choose between many variations of insertion strips in different heights and widths. The stamps are inserted into the foil strips and are thereby protected on both sides. Due to the quality of the foil, you always have a "crystal clear" view at your stamps. The gentle clamp effect of the foil seam, which is produced by a special foil welding process, ensures that the stamps stays at its intended place. The foil sheet is glued on the cardboard sheet by a special adhesive process at the left side. This allows a simple leafing. Because of this, you can easily have a look on the front and the rear of the stamps without taking them out of the foil sheet. This is a typical character of the LINDNER T-system. The high-quality of material and production ensure an easy remove of the stamps, without the fear of damage. All pages of the LINDNER T-system have 18-ring hole punch, which gives them a sturdy hold in all LINDNER ring binders with 18-ring mechanism. The LINDNER ring binder can be found on page 66-68.

LINDNER T-ILLUSTRATED COUNTRY ALBUMS

Illustrated stamp pages were developed for those collectors who like to collect certain or several countries, with the entire stamp issue years. The stamps are depicted on the card pages and provide a fixed place for the stamps. This helps to portray each issue. Our employees in the LINDNER philatelic department collect and process issued stamps of over 150 countries for you. For those who collect internationally, there is no way around using our illustrated pages. They ensure that our collector owns the complete collection. Stamps will illustrate events of a country, they inform you about parts of the world, organizations and communities, allow insights into cultures and tell of highlights in history, politics and science. Stamps allow you to experience international events up close. The illustrated pages provide anticipation for stamps which have not yet been issued, and tell you which stamps still need to be found. Place the stamp in the provided place in the foil sheets. You can lay the stamp directly over the stamp illustration on the page. The stamp now lies entirely protected by the sheet foil. Each year, supplements are issued for the previous year, ensuring that your collection is always up to date.

LINDNER DOUBLE T-ILLUSTRATED PAGES

The LINDNER double T-illustrated stamp pages were developed for collectors, who wish to collect the new stamps as well as used stamps and do not want to purchase two sets of illustrated pages. The stamps are printed on both back and front side of these card pages. The foil sheets are glued on both front and back of the page, so that you can keep the new stamps on the front side and the used stamps on the reverse.

LINDNER T-BLANK AND LINDNER DT-BLANK-SYSTEM FOR THE TOPICAL OR THE CREATIVE INDIVIDUAL COLLECTOR

This system offers countless possibilities for the individualists and creative collectors who like to design their own stamp collections. Unlike the illustrated pages, these pages are not printed but remain blank. The LINDNER T-Blank-system has over 80 different page variations with different foil sheet strips for an individual set up of stamp collecting.

An advantage in the LINDNER T-Blank-system is that the stamps can always be removed or the page rearranged. The page will not be damaged and can be used to design a new collection. For collectors that like to add text or pictures, we offer the LINDNER write-up pages with many possibilities.

The write-up pages can be designed by hand or on the computer and are then placed between the card page and foil sheet, turning each page into an individual eye-catcher. The size of the write-up pages corresponds to the different kinds of T-Blank-pages.

LINDNER PAPER QUALITY

All LINDNER systems use the exclusive PERMAPHIL®-cardboard, which protects a stamp collection from the aging process and harmful environmental influences for decades.

Impressive facts about our PERMAPHIL®-cardboard:

- a pH value of more than 7.5 which makes it acid free,
- age resistant due to a low calcium carbonate content,
- free of optical brighteners,
- free of acid-forming components,
- bleached without chlorine,
- firm album quality.

Protection on both sides of the stamp.

Clear view of the stamp.

Stamps can be viewed by turning the page (they don't have to be removed from the protective case).

Secure fixture of the stamps by gentle clamping effect of the foil seams. LINDNER T-freestyle can be integrated into each available collection-system. Thus offering the possibility to complete or expand an existing collection, regardless of which type of collection system is being used.

Choose the page format and position.

Layout the pages as you require, then fix the LINDNER T-freestyle foil sheet.

For an even more flexible collection-system, use the LINDNER inserts for write ups. Layout the labeling sheets as you require and then place them between the foil sheet and the album page. This offers the advantage of being able to remove the labeling sheet and re-use the album page.

MULTI COLLECT - SYSTEM

VERSATILE COLLECTING WITH OUR MULTI-TALENTED SYSTEM

Made in Germany

Made in Germany

Versatile collecting with our multi-purpose album system. This album rightly deserves its name – every collector can find a large assortment of pages with a wide variety of pocket sizes which provides different types of collections.

Whether you collect stamps, sheetlets, FDCs, ETBs, year books, booklets, postcards, banknotes, coins or phone cards: Our Multi collect-system has a place for everything! The typical 4-ring mechanism of the padded Multi collect-ring binder guarantees an easy handling and impresses with a large capacity. A plastic window on the spine provides space for identification labels/description of contents.

We offer ring binders which differ in size, colour and storage capacity.

Fitting ring binders are found on page 74-75.

MULTI COLLECT-PAGES

The **one-sided**, crystal clear Multi collect-pages made of softener and acid-free hard-PVC-foil. You can view front and back of the items that are placed in these pages.

The **double-sided**, black Multi collect-pages are made of archival safe hard-PVC, that is free of acids and chemical softeners to ensure long term preservation and presentation.

Our **crystal clear Multi collect-coin pages** provide neat and safe storage of your coin collection. Simply remove the plastic strip from the page and insert the coins in the individual compartments. Once it is filled, insert the strip back into the page. The pages are easily removed, added or changed.

UV TEST LAMPS

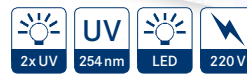

Banknotes, stamps, telephone cards and other documents are easily detected with a UV lamp. The UV lamp will show whether a stamp has been printed on normal paper or fluorescent paper. Fluorescent paper gives off a light yellow or white glow compared to normal paper. Repairs and other defects can also be seen. The lamp will operate in daylight or artificial light.

DIGITAL USB MICROSCOPE

In many situations it is quite important to see even the smallest detail. Variations from the original, small details, micro script or damages which often cannot be seen by the naked eye – are no problem at all for the USB microscope. View with ease at the screen what was hidden before. With the help of the included software you can easily take pictures and videos of your new knowledge which can then be documented and saved. There are no limits of the application areas in which the USB microscope can be used, no matter if you use it for your hobby, profession, at school or just of pure interest for fine details! Use the microscope as a hand-held unit or as a standing unit with the included stand.

NIMBUS DISPLAY FRAMES

GIVE YOUR FAVOURITE COLLECTIBLES THAT "SPECIAL LOOK"

The display frames of the NIMBUS Series offer a completely new way of displaying your collectibles. The special feature of these frames are the two crystal clear, flexible silicone membranes which surround your items gently and create the impression that they are suspended inside the frame. At the same time you have an unlimited view of the back and front side of your favorite pieces. There is almost no limit of what kind of items you can display in

these frames. The material is very flexible and adapts completely to the surface of the objects and keeps them in place. From coins (in capsules) and stamps to writing utensils, watches, knives, decorations, photos, jewelry and other collectibles - with NIMBUS you can display your favorite objects in a special 3D frame!

...HERE IS HOW IT WORKS: Open the frame completely. Place the collectible on one of the two silicone membranes and close the frame. The object will be held in place by the surrounding silicone membranes, keeping it in its position. A magnetic closure holds the frame together!

INFORMATION FOR THE LINDNER ILLUSTRATED COUNTRY ALBUMS AND SUPPLEMENTS

ILLUSTRATED PAGES

Illustrated album pages provide a full and complete overview of each country's issued stamps. LINDNER uses an acid-free, age resistant, and archival paper called "PERMAPHIL®"; the size is 272 x 296 mm. The firm, wood-free paper has an 18-hole perforation to fit all the original LINDNER 18-ring binders shown on pages 66-67. Some of the LINDNER-T illustrated country albums are printed in full colour. The selection of illustrated albums in colour range from Germany, Berlin, France, Great Britain, Netherlands, Austria, Switzerland to Spain. These album sets are specially marked in the following index.

SUPPLEMENTS

Listed from page 113 are the yearly supplements for all LINDNER-T illustrated country albums. They are published in the early summer of each year and contain the supplement pages for all stamps issued in the previous calendar year. Stamp collections can be kept up-to-date and the continuous quality of the supplements guarantee a perfect match to the pages previously purchased.

NUMBER OF PAGES

In the following index, the number of pages is the actual amount of illustrated album pages in one set (title pages excluded). However, all sets contain title pages and are included in the price.

SINGLE PAGES

Every LINDNER-T illustrated album page can be purchased individually. Please provide exact order information including album number, page number and year since single pages can not be exchanged or returned. Example: 1 x 120b-49 pages 15, 16, 17 year 1959. We recommend: Before purchasing a large amount of single pages, check if it is less expensive to obtain a complete set instead of individual years. Please contact us if you need assistance.

LINDNER SINGLE PAGE INDEX

The page index lists the year as well as the MICHEL numbers and/or the catalog numbers for each illustrated page. The LINDNER-T page indexes starting in January 2000 can be found on the internet under www.lindner-original.de in the section "Downloads". For each area of interest you can obtain the retrospective years on request.

IMPORTANT:

The following tables contain the supplement pages 2016. The supplements for 2017 will be issued in spring 2018. The supplements for 2018 will be issued in spring 2019.
